2000 Expedition Air Conditioner Recharge

As your 2000 Ford Expedition ages, the air conditioning unit will gradually lose its ability to cool the cabin of the vehicle. This is most often because the air conditioner unit needs to be recharged with refrigerant. The refrigerant cools the air that the blower forces into the vehicle. While a repair shop can recharge the air conditioner unit, you can do it much more cheaply yourself.

How to Add Refrigerant to the AC on a 2000 Ford Expedition ...

Turn the can of R134a to the "On" position to begin the recharge process. Allow the refrigerant to recharge the system until the can of R134a is empty. Turn the valve counterclockwise to the "Off" position and disconnect the hose from the low-side fitting. Close the hood and your air conditioner is now ready for use.
