An Organic Architecture The Architecture

Organic architecture is a philosophy of architecture which promotes harmony between human habitation and the natural world. This is achieved through design approaches that aim to be sympathetic and well-integrated with a site, so buildings, furnishings, and surroundings become part of a unified, interrelated composition. An organicist is an architect in the organic movement.

Organic architecture - Wikipedia

The meetings were hailed at the time as the most remarkable events of recent architectural affairs in England, and the lectures were published as *An Organic Architecture* in September 1939 by Lund Humphries. The texts remain an important expression of the architect's core philosophy and are being reissued now in a new edition to commemorate the 150th anniversary in 2017 of Frank Lloyd Wright's birth.
