Apple DuoDisk 5.25 - APPLE2.ORG.ZA - Mirrors
The DuoDisk drive is supposed to be connected to the motherboard with a 5.25" disk controller card (although other controller cards can be used). Thought #2: The Apple part number you gave, "590-0037-B" after searching on Google, is a serial printer cable. Thought #3: The correct part number for a Duodisk cable is 590-0114.

Duodisk Repair Help | Applefritter
Apple Duodisk, A9M0108. Introduced in 1984 slightly before the Unidisk, it contains two 5-1/4" Unidisk drives mounted side by side in a beige enclosure. Designed to sit between the computer and monitor. The Duodisk drive has a unique, removable cable that runs from the drive to a drive interface card - either the I/O Controller (Duodisk) Card or the 5.25 Drive Controller Card as it was later named.

Old Apple Stuff - Apple // Manuals
After keeping my eyes on eBay for a long time, I managed to finally score an Apple II DuoDisk. I've seen plenty come and go, but they were either too expensive (over $100 bucks), or they nailed you on the shipping. I admit, this one looks like it's seen better days, but at least it was only $40 bucks. It also includes the floppy cable.

Apple - Support - Manuals
Mainly, this mini-manual covers DOS 3.3. There is a short 'intro' section on ProDOS at the end. DOS "DOS" means "Disk Operating System". A DOS is a collection of machine language routines and data which lets a computer Read and Write information to/from disk. Apple II DOS, Commodore 64 DOS, and the DOS used on PC's are all called "DOS";

Macintosh and Apple II Books and Manuals
In 1983, along with the introduction of the Apple IIe, Apple initially offered a combination of two, two third-height, 140-kilobyte Disk II drive mechanisms side-by-side in a single plastic case, called the DuoDisk 5.25 (A9M0108), which could not be daisy-chained. The unit was designed to be stacked on top of the computer, and beneath the monitor.

Disk II - Wikipedia
The Apple IIe was a late replacement for the surprisingly long lived Apple][line. It had twice the RAM, twice the ROM, 80 column support and upper and lower case support built in.
