BP Ultimate has been specially designed to fight the negative impact of deposits on key engine components. (And this is true -Ed) "The formulations of the new BP Ultimate fuels contain special molecules that attach themselves to dirt, releasing it from key engine components. The fuel is then burned in the combustion chamber".

Dirt-Busting Fuel... fact or fiction? | Practical Motoring

The diesel fuel quality standard lays out the complete list of legislated diesel properties >> The point is: Your diesel engine is designed to run on diesel fuel that meets this standard. And it cannot be sold here unless it meets the standard. And this means the truth about premium diesel is 95 per cent marketing bullshit.
