Business Statistics Final Exam Solutions December 17, 2008 2 7. (1 pt) The inter-quartile range equals the 75th percentile minus the 25th percentile. (a) True (b) False For questions 8-10: You are the senior vice-president in charge of production for a company that manufactures two different types of "widgets." You manage three

BUSINESS STATISTICS FINAL EXAM - Faculty

Here, we will look at summary statistics, which give an overview of a data set, such as the average score on an exam. However, the average does not always tell the entire story; since half of the students could have gotten 100 on the exam, and the other half gotten 60. Using statistics, we can learn a lot more about how data is organized.

BUS204: Business Statistics | Saylor Academy

$t = \frac{\bar{x} - \mu}{\frac{s}{\sqrt{n}}} = \frac{2.1 - 2.05}{\frac{0.33}{\sqrt{30}}} = 1.85$ The critical value for $\alpha = 0.05$ for a two-tailed test using the t 29 distribution is 2.045. Your value is less than this, so you fail to reject the null hypothesis and conclude that the study produced no evidence that the variables are significantly correlated.

Practice Tests (1-4) and Final Exams - Statistics

(4) The exam paper is not to leave the room (5) There is ample space for working on the exam paper - no booklets will be provided. (6) Students may write on the exam paper during perusal. (7) Cover: Week 1 to Weeks 6-7 (Confidence Intervals); Workshop Questions from Week 2 to Week 6.
