### Touch: The Science of the Hand, Heart, and Mind: Linden ...

In a work at once deeply learned and wonderfully accessible, the neuroscientist David J. Linden counters the widespread assumption that the brain is a paragon of design—and in its place gives us a compelling explanation of how the brain's serendipitous evolution has resulted in nothing short of our humanity.

### The Accidental Mind — David J. Linden | Harvard University ...

Johns Hopkins neuroscientist and bestselling author of The Compass of Pleasure David J. Linden presents an engaging and fascinating examination of how the interface between our sense of touch and our emotional responses affects our social interactions as well as our general

### Touch: The Science of Hand, Heart, and Mind by David J. Linden

David Linden is something of a Howard Stern shock jock and there's a lot of heavy breathing in this overview of brain function and the linkage between psychological and brain processes. Linden is clearly a thoughtful scientist and this comes through in his excellent choice of facts and theories to present. This is a very intelligent book."
