Back in April, we asked cancer program leaders to tell us which medium- to long-term impact of Covid-19 they were most concerned about. Nearly half indicated that a top concern was an increased number of late-state diagnoses and poor outcomes due to delayed screening, routine care, and/or treatment.. Now, while delayed treatment hasn't been a significant issue—most patients seem more ...

Cancer diagnoses are down nearly 50%. That's not a good ...

Keeping a positive outlook is proven to help with stress management, but when someone says to "think positive" or "be optimistic" during a time such as cancer, it can be much easier said than done. We know that cancer isn't all rainbow and butterflies and once you enter a dark mindset, it can be hard to get out of it.

Going through breast cancer treatment is very hard. Adjusting to life after breast cancer can be pretty difficult too. One thing that helped me throughout my treatment and during my post-treatment time, is positive affirmations. It is a simple practice that helps to center my mind to focus on the good that I want to see happen in my life.

50 Affirmations for Breast Cancer Survivors

If you are working with someone else, you can use affirmations in the second and third person. For example, after he says, "I am love," you might say, "You are love" or "He (using the person's name) is love."
