Copm

The COPM is an individualized, client-centred outcome measure. The Canadian Occupational Performance Measure is an evidence-based outcome measure designed to capture a client's self-perception of performance in everyday living, over time. Originally published in 1991, it is used in over 40 countries and has been translated into more than 35 languages.

COPM | Canadian Occupational Performance Measure

The Canadian Occupational Performance Measure (COPM) is an individualized measure designed for use by occupational therapists to detect self-perceived change in occupational performance problems over time. Therapist: Facility/Agency: Program: published by CAOT Publications ACE Printed in Canada

CANAD IAN OCCUPATIONAL PERFORMANCE MEASURE

The Canadian Occupational Performance Measure (COPM) is an important tool to enable personalized health care. Designed for use by occupational therapists, the measure serves to identify issues of personal importance to the client and to detect changes in a client's self-perception of occupational performance over time.
