Business & Economic Reporting - NYU Journalism

Business journalism is the part of journalism that tracks, records, analyzes and interprets the business, economic and financial activities and changes that take place in societies. Topics widely cover the entire purview of all commercial activities related to the economy. This area of journalism provides news and feature articles about people, places and issues related to the business sector. Most newspapers, magazines, radio, and television-news shows include a business segment. Detailed and i

Business journalism - Wikipedia

Economics of Journalism The newspaper business has been in decline for the past twenty years. Almost every single source of revenue, from newsstand and subscription sales to classified and retail advertising has fallen dramatically. This has led to the bankrupt reorganizations of a number of very prominent national newspapers.

About this book. This book assesses the extent to which British news organizations gave exposure and credence to different political interpretations

of economics and business news in the decade before the 2008 Financial Crisis. Through the content analysis of some 1,600 news items, this study provides compelling empirical evidence to inform often theoretical debates about neoliberal assumptions in the media.
