### **Two-factor theory - Wikipedia**

Two-factor theory, theory of worker motivation, formulated by Frederick Herzberg, which holds that employee job satisfaction and job dissatisfaction are influenced by separate factors. For example, bad working conditions are likely to be a source of dissatisfaction, but excellent working conditions might not produce correspondingly high rates of satisfaction, whereas other improvements such as increased professional recognition might.

Herzberg's Motivation Theory - Two Factor Theory. Herzberg's Motivation Theory model, or Two Factor Theory, argues that there are two factors that an organization can adjust to influence motivation in the workplace. These factors are: Motivators: Which can encourage employees to work harder. Hygiene factors: These won't encourage employees to work harder but they will cause them to become unmotivated if they are not present.
