IBM offers a deployment guide (including deployment options and steps) and best practices in Ansible Playbooks. Spectrum LSF conforms to best practices with respect to operations, security, cost-effectiveness, and backup and recovery. Spectrum LSF can be deployed in two modes:

Scheduling Tasks on AWS with IBM Spectrum LSF and IBM ...

IBM Spectrum LSF provides easy-to-use interfaces for managing complex workflows. This allows our aerodynamicists to focus on CFD for car design rather than executing detailed manual steps. This level of simplification and automation reduces the training time from days to hours and enables new users to run full CFD workflows in record time.”
