Once your system's calibrated, the MS-8 features a 31-band equalizer for sound tweekers who appreciate manual control over the overall tone of the music. You can store up to five favorite EQ curves to optimize the sound for different sources or styles of music.

JBL MS-8 Digital sound processor at Crutchfield

Counterfeit products are not authentic and therefore do not meet the high quality and safety

standards established by JBL. These products are inferior and usually fail a short time after first use due to poor components & expose consumers to potential safety hazards even when not in use.

JBL Support

MS-8 | 240-watt, powered DSP-based car audio upgrade solution The JBL® MS-8 dramatically improves the sound in any vehicle with an existing audio system. It's got the power of a digital signal processor (DSP) to optimize audio signals and your car's listening space, no matter what kind of car it is.
