Occlusal correction:principles and practice

Abstract. Occlusal adjustment is an invasive and irreversible therapy. It is not a prophylactic procedure to be undertaken lightly. The occlusal surfaces of teeth are selectively reshaped so that the dentition will achieve the criteria of an optimum and mutually protected occlusion, at least in a Class I occlusion. The procedure, promoted some 50 years ago and modified slightly over the years, is rational and practical.

These 11 principles of correctional nursing practice remind us of just how values-driven our practice must be. 1-Primary Duty to the Patient : We have a therapeutic duty to our patient at all times. This duty is to restore and maintain health, prevent illness, and promote health and wellness through education.
