The exciting new technology we will cover here refers to easing back pain and sciatica that is caused by disc problems. In the United States, it is estimated that about 7 million low back pain cases are related to disc problems. It is important to note that these new technologies are unproven, so it is imperative to use a healthy dose of caution.

New Technologies for Treating Sciatica and Back Pain

The Federal Ministry of Education and Research (German: Bundesministerium für Bildung und Forschung), abbreviated BMBF, is a cabinet-level ministry of Germany. It is headquartered in Bonn, with an office in Berlin. The Ministry provides funding for research projects and institutions (aiming for "research excellence") and sets general educational policy.

Federal Ministry of Education and Research (Germany ...

This paper reviews the literature on incorporating behavioural elements into epidemiological models of pandemics. While modelling behaviour by forward-looking rational agents can provide some insight into the time paths of pandemics, the non-stationary nature of Susceptible-Infected-Removed (SIR) models of viral spread makes characterisation of resulting equilibria difficult.
