Since it's a search engine. browsing for books is almost impossible. The closest thing you can do is use the Authors dropdown in the navigation bar to browse by authors—and even then, you'll have to get used to the terrible user interface of the site overall.

### Soils An Introduction 6th Edition

I bought this for a friend who loves soils, soil samples, and soiling. She was so thankful that I got her the 6th edition and not the 5th edition because the 5th doesn't adequately cover silts and spent far too much time on sands. She said the book is a great pairing with a fine dinner of cheezits and slim jims.
