(PDF) Behavioral Public Finance: Tax Design As Price ...

Some recent evidence has come from policy trials looking at the impact of 'nudges' which relate to aspects of tax policy. For example, HMRC and the Behavioural Insights Team at the Cabinet Office conducted an experiment with the wording of letters sent to people asking them to pay outstanding taxes. People receiving a letter telling them about compliance rates in their local area were much more likely to respond quickly than those sent a generic letter, suggesting a role for 'social ...
